1000 Tin Toys

Teruhisa Kitahara : 1000 Tin Toys before purchasing it in order to gage whether or not it would be worth my time, and all praised 1000 Tin Toys:

The toys featured in this book are the finest held in the collection of Teruhisa Kitahara which is now housed at Yokohama's Tin Toy Museum, of which Kitahara is the curator. The toys include a steam locomotive from the 1800s to a battery-operated robot of the 1950s.
