10X Magnifier With Led Light

From Whitman Publishing : 10X Magnifier With Led Light before purchasing it in order to gage whether or not it would be worth my time, and all praised 10X Magnifier With Led Light:

7 of 7 people found the following review helpful. Powerful pocket-sized magnifierBy MaryThis is a great little pocket-

sized magnifier. It has a bright light that automatically illuminates when you slide the lens out of the protective case. The batteries are even included.0 of 0 people found the following review helpful. Good Loupe.By Jeff Y.This is great for work. It helps me look at small items, even when I am on travel. The fact that the loupe retracts into a case is definitely an improvement. In addition the light makes it easy to see even more detail.0 of 0 people found the following review helpful. For a small magnifier this works very good and is protected when not in useBy RGKFor a small magnifier this works very good and is protected when not in use. The magnifier pulls out and the LED light comes on automatically. It reads to 10X magnification.

Magnifier with light for reviewing coins.
