Valuable GuideBy Jerry Donald NeelWhat the Whitman Red Book does for U.S. coins, this books does for Canadian and Mexican coins in addition to U.S. coins. A valuable guide to anyone interested in the coins of our northern and southern neighbors as well as our own coinage.0 of 0 people found the following review helpful. review helpful. A money saver and a good reference book. By Dennis Alton This catalog is a subset of the World Coin catalog. It covers the countries I am most interested in and cost a lot less than the World Coin Catalog.

Your all-in-one guide! Featuring more than 50,000 individual coin listings and updated coin prices for the United States, Canada and Mexico, North American Coins Prices is the perfect all-in-one guide for coin collectors, enthusiasts and dealers. Organized by country, denomination and date of issue, the catalog provides a clear, detailed and easy-to-use resource to a vast array of coins. The U.S. section begins with early Colonial coins and tokens of the 17th and 18th centuries and follows through Federal issues from 1792 forward. The listings for Mexico begin in 1701 while Canada's listings begin with its earliest unified coinage in 1858. Inside you will find: * Pricing, descriptions and photos for current coin issues of the United States, Canada and Mexico * A photo-grading guide to help in making informed assessments of coin conditions * A guide to identification and valuation of error coinage * Graphs tracking price performance of "key date" U.S. coins
