Although the book is advertised as a "Paperback," it is an 8.5 x 11 inch soft cover book of 144 pages. It contains many photographs, maps and diagrams to provide the history of the Japanese swords, and the five swords that are the topic of the book. The author added a chapter on M/Sgt R. M. June, USMC, taken prisoner on Wake Island when that island fell to the Japanese on December 23, 1942. The author also includes a chapter care and cleaning of Japanese swords and an appendix.The photos and graphics make this book a worthwhile addition the library of anyone interested in Japanese history, Japanese swords, and the chapter on M/Sgt. June.

This book is a primer for the person who may have a passing interest in Japanese Swords, but do not know where to

start. But; there are those that look beyond the blade to what it may have meant to those who carried them. It revolves around five swords and a hanging scroll that came to the United States about 1946. These swords date from 1400 to Jan 1944. A sixth sword given to a Marine Defender of Wake Island by the C.O. of a Japanese Pow camp. Three of these swords, have original short stories that focus on these swords. The scroll, is a painting of a samurai sitting beneath a Cherry tree with writing materials. The Book,has 144 pages richly illustrated with about 110 photos, "Care and Cleaning of Japanese Swords". This version of the book is in BW.
