I think having them mailed is too much drama so I'm going to have my greeters put them in a vintage bird cage so we can go through them after the wedding. I thought that was a cute idea and the postcards are worth the money. Shipping may be ridiculous but they come in a cute box. I am definitely using almost all except for a few since some are very humorous and some may think are risqué however I think some will bring a little chuckle to the guests. LOVE IT!7 of 7 people found the following review helpful. Delightful!By Liz Goes GreenI used these adorable vintage cards in lieu of a guestbook at our wedding. I pre-labeled and stamped them, allowed each guest to choose his/her favorite, and asked the guests to send their messages to us in our new home. Everyone raved about the idea and the selection of cards in this group. And, you can't beat the low low price. The postcards are average size and feature a ton of great (mostly) victorian images and sayings, some suggestive, others tame. Highly recommended!1 of 1 people found the following review helpful. Perfect!By True ReviewThis is a great set of high quality postcards. A few are kind of risqué, but most are just sweet and fun! I'd absolutely recommend them and may buy more in the future.

Say it with a kiss! This lovely keepsake box is filled with charming postcards featuring reproductions of vintage and Victorian images of all sorts of smooches. Full of romance and whimsy, the collection contains sentiments perfect for Valentine's Day or any time of year.
