Great Introduction to ConservationBy DianeA great introduction to conservation for the layman or for the young person considering conservation as a career. If you are an art lover or an artist, this book would make a great addition to your collection. It is one that you will enjoy reading more than just once.5 of 5 people found the following review helpful. Good introduction with examplesBy Hugh OatcakeI was researching a subject (restoration and conservation) I did not know well. This was a good starting point. Concise and
