A Collector's Guide to Third Reich Militaria

Robin Lumsden : A Collector's Guide to Third Reich Militaria before purchasing it in order to gage whether or not it would be worth my time, and all praised A Collector's Guide to Third Reich Militaria:

0 of 0 people found the following review helpful. Three StarsBy John Blomgrencould be much better0 of 0 people found the following review helpful. Five StarsBy Ken ChandlerA nice reference work for German Militaria! KOC17 of 17 people found the following review helpful. A good book for the noviceBy B. HoggeThis book is a great introduction to the great hobby of collecting German Militaria. It discusses a wide variety of items giving brief insight on each. It even goes into some detail on reproduction items and how to spot them. Once you decide what area you want to specialize in there are many books out there. But take it from me, this is the one to start you off.

Covering all the major areas of Third Reich militaria interest, this book is an excellent introduction to this complex subject. This new edition has been revised to take account of the latest prices and availability.'
