Edward Gordon Craig was an artist philosopher whose daring stage sets were many years ahead of their time and whose theories about the use of masks in theater remain startling even today. His work with bookplates is too little

remembered, but the designs are a wonderful introduction to his aesthetic theories and his experiments with light and shadow, as this unique volume illustrates.

About the AuthorDr. Paul Rich is a member of the American Society of Book Plate Collectors and Designers, and of the Bookplate Society, which is the successor to the storied Ex Libris Society. His special interest is in Masonic and other fraternal organization bookplates.
