A Guide Book of United States Coins 2011: The Official Red Book

R. S. Yeoman : A Guide Book of United States Coins 2011: The Official Red Book before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide Book of United States Coins 2011: The Official Red Book:

0 of 0 people found the following review helpful. Beyond question the absolute best guide to pricing and grading for serious coin collectors. Highly Recommended.By Michael R.This is the 3rd edition of this greatly expanded version of the long-time favorite of coin collectors by Yeoman. It has very good illustrations and even more supporting content than the past two editions, if that's possible. If you are a serious collector, this is the reference book you need as your guide to pricing for retail sales. The companion "Blue Book" guide is also the #1 guide for dealer prices.Highly Recommended!46 of 46 people found the following review helpful. STARTERS GET THISBy SolarRaistlinZThis is what you want in a collector's guide. It's got the years and types and prices for each coin going back to the early 1700s. The spiral binding is especially usefull for table top use when looking through a pile of coins. Color pics and the

description and detail is amazing. It even gives a description for the grade of individual coin styles!!!! what should a BU washington quarter look like vs a morgan dollar - its all here. If you are starting out, you'll want this one first. Blue is for pros and those who are getting more into the investment side. The red book gives just enough info to get you started and excited and feel a heck of a lot more knowledgeable with background and history, reference and premo statistics. 0 of 0 people found the following review helpful. A Guide Book of United States Coins 2015, The Official Spiral Red Book By TELL IT LIKE IT IS !This is one of the more Accurate Coin Collection Books of Retail Prices for all U.S. Coins. It covers every U.S. coinage ever made including Gold Coin's, Commemorative's, Token's, Bullion Coins, Proof and Mint Set's. This is one of the better book's you'll need to put a Retail Value to your Collection. I have collected these Book's for year's they seem to get better every year.

The Official Red Book, now in its 64th year, is famous nationwide as the premiere resource for U.S. coin collectors. This best-selling one-volume library helps you make smart buying decisions as you build your collection. Millions of readers rely on it for full-color photographs, detailed technical data, and up-to-date mintages. The Red Book covers the history of colonial and early American coins; official federal issues from half cents through silver dollars and gold coins; classic and modern commemoratives; Proof and Mint sets; error coins; Civil War tokens; pioneer (territorial) gold; every state and territorial quarter, plus the new National Park quarters; all of the presidential dollars; and more.

You'll benefit from its practical essays on grading, investing, auctions, and other hobby subjects and of course, its pricing for 6,000-plus coins, in up to 9 grades each, gathered from more than 100 of the nation's leading coin dealers! The 2011 edition features more than 1,800 full-color photographs to help you confidently identify your coins. Updated values, mintages, and auction records. Expanded coverage of commemoratives, sets, and other coins. The latest research on colonial coins and private/territorial gold. New higher-grade pricing for classic commemoratives. Something of value for every collector, new or experienced. It's no wonder more than 22 million copies of the Red Book have been sold since the 1st edition!
