ABC for Book Collectors

John Carter : ABC for Book Collectors before purchasing it in order to gage whether or not it would be worth my time, and all praised ABC for Book Collectors:

0 of 0 people found the following review helpful. Five StarsBy CustomerGood1 of 1 people found the following review helpful. Five StarsBy Jacqueline A. BartelmoLove this book! so handy and the seller got it to me in a timely manner1 of 1 people found the following review helpful. Still unsurpassedBy Amanda GreyThis old classic, essentially a dictionary of book terms, is a must for book collectors, special collections librarians, and anyone dealing with books as objects.

Eighth edition, completely revised and re-set, with additional information and an Introduction by Nicolas Barker. Shaken, Unsophisticated, Harleian Style, Fingerprint, E-book, Dentelle. Can you define these terms? If not, this is the book for you! John Carter's ABC For Book Collectors has long been established as the most enjoyable as well as the most informative reference book on the subject. Here, in over 490 alphabetical entries, ranging in length from a single line to several pages, may be found definition and analysis of the technical terms used in book collecting and bibliography, interspersed with salutary comments on such subjects as auctions, condition, facsimiles and fakes, 'points', rarity, etc. This eighth edition has been revised by Nicolas Barker, editor of The Book Collector and incorporates additional words created by the introduction of web-based collecting. The ABC For Book Collectors retains its humorous character as the one indispensable guide to book collecting while also keeping us up-to-date with modern terminology.

.com This seventh edition of John Carter's classic text contains in-depth descriptions of every aspect of antique and modern book collecting from A to Z. All terms are alphabetized for quick reference, including how to take care of pigskin, morocco, or Russian leather, how to tell japon vellum from India proof paper and how to determine "very good copy" in a collectible volume. For first edition collectors, Carter's definition of "follow the flag" explains the historical issues surrounding first and native first texts. The book's pages are charmingly labeled, showing you exactly where the half-title and tailpiece are located and what a printer's imprint page looks like.
