No Information or History!By depandraI really don't like that this book only has pictures and no information or history, but for the low price I paid, I will just keep it.1 of 1 people found the following review helpful. Head Vase guide missing somethingBy CherylSHas beautiful color pictures and information. Also many different 'odd' head vases I have not seen in other books. I found it rather difficult to find what you are looking for though, as you have to thumb through the entire book. Would have been more helpful to have the identification numbers of each head vase listed in index style with page reference, as other books of this type have. There is no index of any kind, and 'categories' are very vague.0 of 0 people found the following review helpful. She was delighted to say the leastBy loridahMy wife collects head vases and I got this book for her birthday. She was delighted to say the least. She is constantly leafing through it and studying it.

Author Kathleen Cole has revised her bestselling volume, *Head Vases*, first published in 1989. Once again hundreds of colorful head vases are pictured and valued, with marks and sizes given. Many new vases have been added in more than 250 new photographs, and rare pieces and samples are also shown. Two new sections have been added, one on Betty Lou Nichols and one on heads with original flowers. Many sets and head vases never before seen are featured - ladies, Oriental, religious, clowns, animals, Art Deco, men, children, wall pockets, famous people, miscellaneous, and more. 2007 values.

I own this book and with having over 500 headvases it sure is handy! Strictly a pictorial book and a handy check-off list to see which head vases you're missing and need to acquire. With price guide in back you are able to judge what the piece is worth or what you are willing to pay. About the Author Kathleen Cole is a noted authority in the head vase collecting field, and has published several books on this subject. Collecting antiques has been a hobby of hers for over 40 years, and some of her collections over the years have included Occupied Japan, pressed glass, and Nippon China.
