4 of 4 people found the following review helpful. This book was in even better condition than described. By Jack Donahue-This reference work is a must for anyone tracking down works by listed artists. I carry it with me when I visit estate sales - you never know what you'll find! 17 of 17 people found the following review helpful. Practical pocket guide By Golovanov Alexey Useful. Compact, reliable, most important sales are well documented, and even

minor names of artists are registered. I do regret of not buying it before. Highly professional, well-balanced and calm approach - Hislop's is not boasting about multi-million sales, or trends, or tendencies - it gives you the information on the hammer prices within a certain period of time. Great job
