2 of 3 people found the following review helpful. Worth reading.By CSMSGMThe author's acknowledgements almost sound like this book was an afterthought. There are no footnotes and the bibliography is only two pages long. That said, the book is still interesting enough to be worth reading. It is very readable and provides a certain amount of insight into the lives and motivations of some of those citizens of Hitler's Germany who dared to oppose him and his regime. The author points out that only a very small number of these people survived the Nazi regime alive and some of those only because they were able to get beyond the reach of the Nazi's. The author also points out that many of

these "Traitors" were put to death in a most hideous fashion. Some of the executions were filmed in order to be shown to Hitler so that he could see that his enemies had indeed suffered when being put to death. Approximately 5000 people were put to death following the July 1944 attempt on Hitler's life. 1 of 1 people found the following review helpful. Good and informative

Information on more plots against Hitler and/or the Nazi regime than just those of Stauffenberg, Scholl, and Bonhoeffer. Each conspirator group is mentioned with quite a few details. But not all the details. Enough to inform, yet interesting enough to make the reader want to search for more specific information. 0 of 1 people found the following review helpful. Five Stars

Good for class room text.

Hitler's Traitors -German Resistance to the Nazis is the story of the groups and individuals that opposed Hitler and his government and tells of their heroic, but largely ineffective, efforts to rid themselves of the most evil regime in modern times. They came from many different backgrounds -Protestant pastors, Dietrich Bonhoeffer and Martin Niemoeller; Catholic bishops such as Clements Galen, who was Bishop of Munster, and his cousin Konrad, Count von Preysing, Bishop of Berlin; politicians Otto Wels and Ernst Thalmann, students Hans and Sophie Scholl, their friends Christoph Probst and Alexander Schmorell and their university professor, Kurt Huber; military men such as Claus von Stauffenberg and Admiral Wilhelm Canaris and even a member of the Waffen 55, Kurt Gerstein. Sadly by the time the Nazi regime came to an end most of those Germans who had resisted it were dead: arrested, imprisoned, tried and executed in the most barbaric manner.
