CloosI feel the need to address the troll in the room, because I nearly didn't buy this book due to the low number of stars. Thankfully, I took the time to actually read the reviews. I'm not sure what the low reviewer has against people from New Zealand, but the book is aimed at looking at all paintings, not just the ones described. Yes, he does concentrate on paintings that he's personally familiar with, but that doesn't detract in any way from the inspiration provided by the book. I thought it was well-

If you're looking to get a little more out of your art gallery/museum experiences, I think this is a perfect beginning. 0 of 0 people found the following review helpful.
