Hunting Antique Bottles in the marine environment: The Complete Field Guide for Finding and Identifying Antique Bottles.

Daniel Berg : Hunting Antique Bottles in the marine environment: The Complete Field Guide for Finding and Identifying Antique Bottles. before purchasing it in order to gage whether or not it would be worth my time, and all praised Hunting Antique Bottles in the marine environment: The Complete Field Guide for Finding and Identifying Antique Bottles.:

0 of 0 people found the following review helpful. Pages fall out within 2 daysBy VCWithin 2 days 10 of the pages fell out of the binding. Poor construction of the book. I want a new book where the pages don't fall out.0 of 0 people found the following review helpful. Five StarsBy GolddredgeGreat book0 of 0 people found the following review helpful. Lots of info.By SandieGreat book for my new obsession.

Hunting Antique Bottles in the Marine Environment is the complete field guide for finding and identifying antique bottles. Capt. Berg has been searching for antique bottles in local lakes, rivers and on shipwrecks for over thirty years. Learn not only how to find submerged antique bottles but also how to clean them and how to estimate how old they are. This text is packed with historical information that shows how bottles were produced and how each manufacturing process left distinct marks which can be used to accurately estimate any bottles age. Capt. Dan has heavily illustrated this text with over 200 color images depicting the types of bottles that can be recovered by searching local waters. He also uses over 10 unique 3D diagrams designed to give a better understanding as to the time line of glass blowing and bottle manufacturing. These 3D mold images are combined with drawings of the bottles they produced and highlight the distinct mold seam marks each created. This informative text tells all the tricks of the trade that until now have only been learned through years of experience. Bottle collectors, scuba divers and anyone interested in exploring the marine environment for these historic treasurers will reference this text often as they search for and collect antique bottles.

Hunting Antique Bottles in the marine environment is the complete field guide for finding and identifying antique bottles. Capt. Berg has been searching for antique bottles in local lakes, rivers and on shipwrecks for over 30 years. Learn not only how to find submerged antique bottles but also how to clean them and determine how old they are.
