## Imants Tillers the Book of Power

**Wystan Curnow, Fine Art Publishing : Imants Tillers the Book of Power** before purchasing it in order to gage whether or not it would be worth my time, and all praised Imants Tillers the Book of Power:

1 of 3 people found the following review helpful. Imants Tillers and The Book Of PowerBy AxymImants Tillers could be cconsidered one of the major expressionist symbolists of the last few decades in Australia, and I well agree with that statement whole-heartedly.I have not yet purchased this book, but have read it cover to cover, many, many times, and even seen some of the tillers' works in real life.This book covers Imants' immigration as a child with his family from Europe - (Croatia, I believe?), and goes right up to his latest exhibitions. Due to Tillers' almost obsessive-compulsive tendency to catalog each panel chronologically, and as such, there is a perfect record of the number of works he has completed, with illustrations of both alot of them and the processes of creating them...I don't know wether or not this review is worthy of a voucher, but an artist like me could sure use it!All I know is that this book rocks.
