## Indians In Argentinian Photographic Postcards of the 20th Century

**From Brand: La Marca Editora : Indians In Argentinian Photographic Postcards of the 20th Century** before purchasing it in order to gage whether or not it would be worth my time, and all praised Indians In Argentinian Photographic Postcards of the 20th Century:

0 of 0 people found the following review helpful. Some Photographic Images of Native Americans on Postcards from Argentina -- Not Much ElseBy Lorenzo Fritz-FranciscoTiny book. Tiny photos. Extremely little information. No analyses of the individual photos. No individual comments on the photos. No overview of ethnic groups. No map showing the distribution of ethnic groups. Not even a list of Argentinian tribes relating to the images.

In the early 1900s, Argentina was still populated by Aboriginal natives. At the same time, gaucho cowboys roamed the country, expanding the settled territories and documenting the landscape and its native tribes--many of whom had never seen cameras before. This compact volume collects 110 vintage postcards that were made from the gauchos' original photographs. We see men and women in ceremonial jewelry, headdresses and skirts, traditional handwoven cloths and handmade boots, very candid portraits, often nude, canoe-like boats, portable tents, elders, dogs, children, weapons, crafts and a lovely assortment of original stamps. In this volume, the reader will find portraits that convey a grace and pride that are truly unusual, if sometimes explicit.
