NortonBeautiful illustrations and pictures. The best I have seen on the Panther. I'll be buying more of this series.0 of 0 people found the following review helpful. Excellent 3D renderingsBy Norman R. CollinsExcellent 3D renderings. good photos, good tabulated data, superb scale drawing. Highly recommended for modelers.

Self-propelled tank destroyers constituted an essential component of the Third Reichs armored arm. Vehicles, which were especially useful in defensive warfare, in which the German army found itself after losing strategic initiative on

the Eastern Front in the summer 1943 and following the Allied landing in Italy and France, with time began to effectively compete in armored sub-units with classic tanks. One of the largest vehicles of that type was Jagdpanther Sd.Kfz. 173, based on the chassis of the famous Panther tank.
