Left hi and dry by Navy and AdministrationBy JJAs a former CTR3, who served in Korea, 1972-73, the book is well written and only reinforces what CT's have always known: that ship never should have sailed in its condition and armament and the Navy and the Johnson Administration did not provide adequate protection nor prepare a contingency plan for the mission. A damn shame for the captain and his crew.1 of 1 people found the following review helpful. Five StarsBy Jerry ReshewThis
