Medallic Portraits of Washington

Russell Rulau, George J. Fuld : Medallic Portraits of Washington before purchasing it in order to gage whether or not it would be worth my time, and all praised Medallic Portraits of Washington:

1 of 1 people found the following review helpful. Five StarsBy William KasebergVery helpful and informative to even a limited collector like me.4 of 4 people found the following review helpful. The Best Specialized GuideBy Dog PersonThis is the best book that I have seen on a specialized group of coins, medals and tokens concerning a single topic, in this instance, George Washington. The authors not only describe, illustrate and evaluate the various items, but often provide details on the issuers and history of a particular item. They use the earlier catalog numbers of Baker supplemented by additional numbers or letters so that earlier material may be readily found. Pricing this type of material is difficult, but on the whole, Rulau and Fuld have done an excellent job.1 of 1 people found the following review helpful. Five StarsBy Paul K. Wendta good improvement from the previous edition.
