By Noreen Gabbay I bought this postcard book for my postcrossing project, worldwide postcard exchange. I am thrilled to send these beautiful postcards. I like the very fast shipping.

A selection of 22 beautiful color photographs of coastal birds found along the shore from New England to the Carolinas -- the great blue heron, cormorant, yellow-crowned night heron, kingfisher, egret, oystercatcher, and piping plover, to name a few. This quality, pocket sized (7" x 5") paperback is perforated so that the card-stock postcard pages can be removed and mailed.
