Needs to have more examplesBy Leslie D.It is hard to have a small and concise guide on such a vast subject, however I was a bit disappointed that there weren't more examples. Possibly, for a field guide without internet access, this may be helpful IF you are looking up a mark that happens to be in here.1 of 1 people found the following review helpful. It isn't the only reference you should have; but, it definitely is a very valuable reference.

Whether you are buying at auction, flea market or antiques shop, this is the book you need to identify and date what you find. More than 6,000 marks are organized for quick, at-a-glance reference with full-colour sections on silver,

bronze figures, ceramics, glass, costume jewelry and toys and dolls.
