Miniauto Collector 7/2003 (Miniauto Collectors Series)

From Giorgio Nada Editore : Miniauto Collector 7/2003 (Miniauto Collectors Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Miniauto Collector 7/2003 (Miniauto Collectors Series):

A special issue widely dedicated to the prominent event in car scale model collectors, the International Nuremberg Toy Fair. All manufacturers and their 2003 production are considered and their new miniature cars illustrated. The vintage section will have specific articles on the Renault 4 CV, the French answer to the German Beetle. The "Collection" columns are dedicated to the Export model cars produced by Polytoys since 1968.
