A wagon full of memoriesBy A CustomerThis is a sweet book - no other word for it - that is bound to be a conversation-starter. What a great gift book! The illustrations are wonderful, and it is full of warm and wonderful recollections. Too bad it didn't tell about the Pasins' giant red American Flyer wagon - two stories high - that appears at Navy Pier in Chicago each September as a part of the Great American Wagon Pull, a child abuse prevention fun walk on behalf of Parents Care Share of Illinois.5 of 5 people found the following review helpful. If ever you had a little red wagon...By Midwest Book ReviewMy Little Red Wagon celebrates the eightieth anniversary of the Radio Flyer Company, makers of the little red 'radio flyer' wagon which has attracted and entertained children for decades. Here owners of the wagons share stories and photos of their wagons, providing a lively survey of Radio Flyer experiences and lore.

Since 1917, the Radio Flyer "little red wagon" has been a fixture in the yards, driveways, and hearts of America-and during those 80-plus years, three generations of Americans have turned their wagons into covered wagons, rocket ships, and racecars. In celebration of its 80th anniversary, the Radio Flyer company sponsored a contest called "Radio Flyer Memories," which invited people to share stories, anecdotes, and photos of their own Radio Flyer wagons. The results are collected in this nostalgic and heartwarming look at the history of the "little red wagon" and its unique place

in 20th century history. My Little Red Wagon features the winning stories, photos, and precious memories from kids (and former kids) across the country. It also features a history of the Radio Flyer company and looks at the many unique wagons it has produced, including: * The 1920's "Lindy" Flyer, named in honor of Charles Lindbergh's flight across the Atlantic. * The 1930's "Streak-O-Light," modeled after the streamlined Zephyr locomotive, which featured control dials and working headlights. * The 1950's "Radio Rancher Convertible" and the 1970's muscle-car-inspired "Fireball 2000."
