MuddThere are some good toy lines covered here, but it's a pretty glaring omission that there are no Transformers listed in the book. Every other action figure guide I've looked at includes them, but not this one for some reason.0 of 0 people found the following review helpful. Five StarsBy Sheri Mayvery nice item, just as described0 of 0 people found the following review helpful. helpful guideBy Pedro Serranoverly cool price guide! very helpful and lots of cool pictures to look at has lots of different toy lines

From the PublisherStuart Wells and Jim Main did a great job on this book -- the pages are chock full of wonderful photos and great information. Although action figures have never been my strong suit, I checked out the Masters of the Universe figures immediately -- I wonder if my nephew still has all the figures we raced around finding for him in the 1980s. GI Joe was always a guilty pleasure for me -- soldiers weren't the thing when I was growing up during the Vietnam War, but I always thought he'd make a better date for my Barbie than that wimp Ken! -- Randy Ladenheim-Gil, Editor, House of CollectiblesFrom the Inside FlapWhat do the Bionic Woman, Captain Action, G.I.
