## **Official Price Guide to Compact Discs, 1st Edition**

**Jerry Osborne : Official Price Guide to Compact Discs, 1st Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Official Price Guide to Compact Discs, 1st Edition:

1 of 1 people found the following review helpful. Poor Official Price GuideBy Martini VittorioThis official price guide to compact discs is really poor and not worth to bother with. There is nothing interesting and to me it was one of my worst buy.

The only reference you'll ever need for collectible compact discs!With the disappearance of the vinyl record, compact discs have taken the music world by storm as the hot new area of collecting. Since prices for new discs are high, a huge secondary market for compact discs has developed -- and used CDs are becoming big business. The Official Price Guide to Compact Discs covers all aspects of this growing hobby, the perfect book for dedicated collectors, especially those interested in limited editions, rarities, promotional CDs, and CD singles!\* **COMPREHENSIVE**. An indispensable A to Z catalog covering nearly every popular artist, from controversial new releases to remastered classic rock and roll to collectible editions made exclusively for compact disc release.\* **EASY REFERENCE**. This clearly organized sourcebook is arranged alphabetically by artist and group for quick, effortless access.\* **INVALUABLE TIPS**. Provides essential advice on buying, grading, and caring for your collectible compact discs -- and a comprehensive list of sources on where to sell them. This is the perfect guide to take along with you whenever shopping for used CDs.\* **FULLY ILLUSTRATED**.
